

FOR IMMEDIATE RELEASE

METAXCHANGE.AI Acquires NETSTAIRS.COM in \$96 Million Strategic Transaction to Expand AI Infrastructure and Digital IP Portfolio Acquisition Accelerates "Pearl String" Growth Strategy and Strengthens AI, Streaming, Content Delivery, and Enterprise Media Technology Capabilities

FORT LAUDERDALE, Fla., May 29, 2026 — METAXCHANGE.AI, INC. ("METAXCHANGE.AI" or "MXCG.AI"), an AI-powered intellectual property licensing and enterprise technology platform company, today announced the acquisition of 100% of NETSTAIRS.COM, INC. in a strategic transaction valued at approximately **\$96 million**.

The transaction was structured as a tax-free reorganization pursuant to Section 368(a)(1)(B) of the Internal Revenue Code. Under the terms of the agreement, shareholders of NETSTAIRS.COM exchanged their shares for METAXCHANGE.AI common stock valued at **\$15.00 per share**, with METAXCHANGE.AI assuming certain corporate obligations and liabilities of NETSTAIRS.COM as part of the transaction.

The acquisition significantly expands METAXCHANGE.AI's digital infrastructure footprint, intellectual property portfolio, and enterprise technology capabilities while advancing the Company's long-term acquisition strategy known as the "**Pearl String Strategy**" across Asia-Pacific and global markets.

Founded more than 26 years ago and headquartered in Fort Lauderdale, Florida, NETSTAIRS.COM has developed innovative streaming, content delivery, and enterprise media technologies serving clients worldwide, including broadcast organizations, advertising agencies, brands, government agencies, and enterprise customers. Its client relationships have included organizations associated with the Asia-Pacific Broadcasting Union (ABU) and the European Broadcasting Union (EBU), among others.

Through the acquisition, METAXCHANGE.AI gains ownership of NETSTAIRS' proprietary technology assets, including its Interactive Content Delivery Network (iCDN), ZIMZIM platform, enterprise digital media technologies, and the forthcoming LETSTREAM AI CDN infrastructure services platform.

NETSTAIRS' technology portfolio provides a strategic foundation for several key initiatives within the METAXCHANGE.AI ecosystem. Its proprietary Interactive Content Delivery Network (iCDN) delivers ultra-low latency streaming, real-time collaboration, interactive broadcasting, and AI-enabled communications infrastructure designed for enterprise, government, education, healthcare, media, and telecommunications markets. The ZIMZIM platform extends mobile-first and 5G-enabled video engagement capabilities across smartphones, tablets, desktops, and connected devices, while LETSTREAM provides virtual venues, digital media rooms, and scalable streaming environments for live events, conferences, broadcasting, and enterprise communications. Together, these technologies support the deployment of AI Enterprise Resource Planning (ERP) ecosystem with multi-AI agents, digital media rooms, data clean rooms, intelligent content delivery systems, and the MXCG.AI Hub vision of interconnected AI-powered operating subsidiaries that generate recurring licensing revenue, enterprise automation services, and scalable digital infrastructure solutions worldwide.

The transaction represents another strategic "pearl" within the growing MXCG.AI ecosystem and supports the Company's mission of building an interconnected network of AI-powered operating subsidiaries focused on creating scalable enterprise value and recurring licensing opportunities.

Through a disciplined acquisition strategy centered on majority ownership positions, intellectual property expansion, and long-term operational integration, METAXCHANGE.AI seeks to accelerate enterprise adoption of artificial intelligence technologies across media, communications, infrastructure, and digital engagement markets.

"After 26 years of stewardship building and operating NETSTAIRS, I am honored to transition leadership to the next generation of technology innovators as I conclude a remarkable 46-year journey of technology entrepreneurship and innovation," said Ahmad Moradi, Founder, Chairman, and Chief Executive Officer of NETSTAIRS.COM, INC.

Moradi continued:

"During the transition period, I look forward to supporting both the NETSTAIRS engineering team and the newly established leadership structure as NETSTAIRS continues operating as an independent business unit within the METAXCHANGE.AI ecosystem. NETSTAIRS has found an exceptional long-term home, and I am confident its future as a wholly owned subsidiary of METAXCHANGE.AI will unlock significant opportunities for growth, innovation, and global market expansion."

"NETSTAIRS is an invaluable addition to the MXCG.AI Pearl String Strategy," said M. Vijjayandran, Director and Chief Operating Officer of METAXCHANGE.AI, INC. "NETSTAIRS will serve as a cornerstone of technology innovation and intellectual property licensing throughout our ecosystem. Its infrastructure, engineering expertise, and AI-enabled media technologies will support our operating subsidiaries while creating scalable opportunities in AI licensing, intelligent agents, enterprise automation, digital infrastructure, and next-generation content delivery services."

Vijjayandran added:

"With more than 26 years of innovation and a respected reputation in digital media, streaming infrastructure, and content delivery technologies, NETSTAIRS brings foundational intellectual property assets and engineering capabilities that strengthen the long-term growth strategy of METAXCHANGE.AI and its expanding portfolio of operating subsidiaries."

About NETSTAIRS.COM, INC.
